

## elipva qualifies for Government IT Procurement Projects of Tendering Capacity Worth S\$10million

One of the selected few companies in Singapore approved by IDA for Bulk Tender 287 and 304

**Singapore, 04 July 2005** – elipva Ltd, a leading enterprise and e-business solutions provider, specializing in government information technology (IT) tender projects is proud to be upgraded to a **S8 EPPU Supplier** under the GeBIZ EPPU financial guidelines.

Under the grading, elipva now qualifies for all Government IT procurement projects of tendering capacity worth S\$10million. The EPPU supplier upgrade came at the appropriate moment. The endorsement by IDA not only certified our group financial strength, but also our e-business solutions expertise and credibility established with the government agencies over the years.

Apart from this achievement, elipva is also one of the few selected companies in Singapore approved by IDA for **Bulk Tender 287 (Professional Services)** and **Bulk Tender 304 (McAfee IntruShield Systems)**.

We pride ourselves in bringing additional values through our proven project methodology that places strong emphasis in change management request, usability of the application design and ease of system maintenance in every project we deployed.

For each project, proven technical/functional competences are also used to manage process workshops, deployment of systems and our customized user training programs have been recognized for great customer satisfaction.

With our commitment “To Simplify” business processes and applications, elipva’s expertise is in providing e-business solutions, outsourcing of applications and systems, enterprise application security, identity and access management, human capital management, financial management and enterprise applications integration based on industry best practices and **open standards technology**.

The future for Information Technology procurement in Singapore is rosy with a whopping S\$2.2 billion worth of IT contracts up for bid in FY2005 (Source: [www.gebiz.gov.sg](http://www.gebiz.gov.sg)). For elipva, our strategy will continue to evolve in providing best of breed IT solutions and to be a keen and aggressive contender in supporting the government’s IT procurement initiatives
