“ We believe that it is absolutely critical to leverage technology in ways that will improve business processes and help us stay competitive. elipva supported our strategy in ensuring success for the present and the future, by deploying technology around 3 fundamental concepts : real-time information, self-service information, and collaborative information.

With elipva Zephyr suite in place, our team is more productive and can focus on more strategic parts of our business. ”

Andrew Mitchell, Director IT  
Schering-Plough Ltd Singapore

Our Partners :

## Our Business

In addressing the need for the evolving enterprise requirements, elipva has the expertise and experience to create a total solution for your organization. From front end consulting, planning and integration to back end solution support, we promise the **best of breed solutions** to seamlessly integrate to your organization unique requirements.

## e-business

e-business has been the foundation of elipva's business strategy since the inception of the company. As a pioneer in Java technology and web services, we have incorporated our experiences and expertise to our own e-business collaboration solution suite for employee self services solution and a framework to plug various applications to meet your organization needs.

Through the years, our solutions and services have also evolved to being the industry premier System Integrator for Business Application Consultancy and Solutions, Enterprise Security Consultancy and Services, and Infrastructure Consultancy and Services.

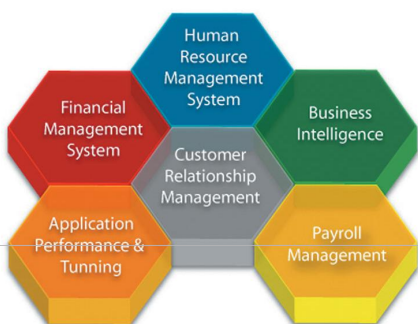

## Enterprise Application Solutions

At elipva, we have the right industry and technology expertise to build a complete enterprise solution for your organization. From initial consultancy and planning, to integrating your internal and external IT resources, we are able to build an enterprise solution that will meet your various business goals.

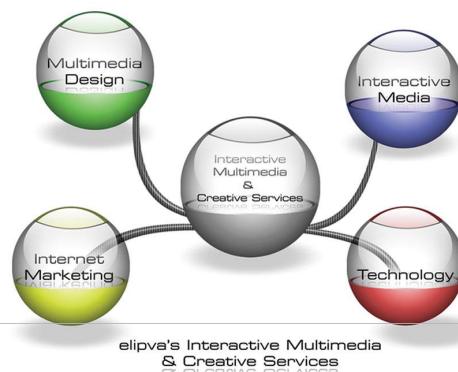

Our experiences with PeopleSoft and still retaining the best pool of PeopleSoft consultants provided us the resources to continue our support for your Human Capital Management and Financial Management System.

Apart from HRMS and FMS elipva also offers solutions like business intelligence, payroll systems, customer relationship management and application performance tuning.

Enterprise Application Framework
