

**Obtain instant results to opinions and feedbacks, and build consensus among co-workers**

**Overview**

Survey/Poll applications allow you to build consensus among co-workers, or simply understand what your group is thinking so that you can make better informed decisions for your business. By replacing traditional questionnaires approach to solicit responds, Zephyr Survey/Poll application gives instant update on responses. Results can be viewed instantly, accumulated and processed, or stored directly in a database.

Organisations will benefit from faster turnaround time, no redundant data entry, reduction in errors, less employee time wasted, less paper used, no mailing costs and faster turnaround time. It is also an ideal tool to:

- Solicit Opinions and New Ideas**  
 Generate new product ideas and gather feedback about products, services and marketing campaigns
- Boost Employee Morale with Greater Sense of Ownership**  
 Advocate employees’ contribution to ideas and involvement in decision-making. Assess and address their concerns to make their opinions matter.
- Gather feedback from departments or group roles**  
 Instantly evaluate new marketing programs and collateral effectiveness, HR policy preferences, project team issues, remote employees’ perspectives, etc.
- Generate instant graphical results**  
 Obtain instant dynamic and visual graphs and chart results
